SEVERAL MEN COULD WRECK THE LABOR GOVERNMENT

—o—

LONDON—Who are the half-dozen men in Britain, Ramsay MacDonald has in mind as able to break a Labor government if it came into effect? I asked this question at Labor Party headquarters. The reply was that MacDonald was characteristically cryptic in his Canadian interview, but there was no doubt he was referring to men with financial power, men who through their control of banking and credit could control industry.

The man in power who is the least disputed is Montague Norman, governor of the Bank of England. He can cause plethora or famine in the money market with a word, and rates of interest, prices of securities and exchange value of the sterling could be sensationally affected by his policy.

There is no doubt, however, that he is the man whom MacDonald counts as being certain to play the game, and he will use his unique power solely with a view to the national interest, whatever government is in power. There is nobody else in the same category as the governor of the Bank of England, but Labor headquarters also mentioned Reginald McKenna, who controls the largest of the ordinary banks.

It is recalled that during the Labor government in 1924 there was a flight of capital from Britain. Money was being invested in American securities. This movement was resisted as strongly as possible by McKenna and other big bankers.

Could Ruin Government

If any one of them desired to embarrass future Labor governments, they would need only to sell British securities and foreign and they would cause a financial crisis. The Labor government next year would be particularly vulnerable to financial attack, because of the maturing of the war loan amounting to two billion pounds.

The third name mentioned at Labor headquarters as that of Lord Melchett, better known as Mond, who controls industrial undertakings on which hundreds of thousands of men depend for employment.

MacDonald's six men doubtless includes those who influence public opinion through control of the press. Rothermere is commander of the biggest circulations and he is also a big financier. He is rivalled by Sir William Berry, who is not so well known to the public, but who became fabulously rich out of coal and iron before he started a successful newspaper career.

MacDonald has received sympathetic treatment from Rothermere, so much that the Conservative party is very nervous about the attitude of Rothermere at the next election.

Theoretically, it is true that any government, even a Conservative one, could be brought down by half a dozen financial and newspaper magnates, but practically it is unlikely they would use their power. Financiers might ruin themselves if they ruined the government, and newspaper magnates are more likely to oppose each other than to combine in overthrowing the government, except when the government had already lost public confidence. Rothermere, Berry and Beaverbrook are more ready to upset each other than to upset the government.

JUDGE HELEN MacGILL
Outstanding among women's gatherings of the year will be the Pan-Pacific Conference of Women, this month, in Honolulu, to which four Canadian women were named as delegates—Judge Helen MacGill of Vancouver, Judge Emily Murphy of Edmonton, Mrs. D. S. Scott of Vancouver, and Miss Charlotte Whitton of Ottawa. Judge MacGill sent a valuable paper on juvenile court problems and possibilities to be read at the conference.

ADVISES ALL BRITISHERS TO SEE CANADA

—o—

REGINA—Almost 50 years ago Commander F. H. Shipton of the Royal Navy, who passed through Regina on the de luxe special carrying 47 prominent English tourists across Canada and back, ate hard tack and pickled pork with the present King George on the high seas.

This information was gleaned in the matter-of-fact statement of the Commander when interviewed at the station that while on the round-the-world tour with the then Prince Geirge and the Duke of Clarence he touched at Esquimalt and at the time did not think it worth while to cross over to the mainland.

"But as time passed," explained Commander Shipton, "my wife and I decided Canada was really worth a visit and here we are after saving for ten years in order to make the trip.

Agrees With Prince

"Now I can back the Prince of Wales in his saying that 'Every Englishman should see Canada before he dies'. This country amazes me, astounds me, by its size and prosperity and were I a young man not imbued with the desire to sail the high seas, I most certainly would leave England and make my home here."

On the round-the-world trip by sea with King George and his deceased brother, Commander Shipton and his Majesty were midshipmen together.

With Mine Sweepers

"Sailing the seas at that time was not much different from the days of Nelson for we didn't have steam boats. We had a steam boiler but never used it. There was no such thing as ship bakeries and cold storage for meats and royalty and common sailors dined together on the same food."

As a result of the rigors and hardships of wartime service with mine sweepers and submarine chasers, Commander Shipton retired from active service in 1919. He preserved a

MILLER EQUALS COURSE RECORD

—o—

SPOKANE—The super golf bug which has bitten several members of the Riverside club within the last week, cinching with Art Misselhorn when he tied the Downriver course record by shooting a brilliant 68 in the qualifying round of the city championship tournament, inoculated Billy Miller, assistant pro at the Downriver course, and enabled him to join the aristocrats of the Inland Empire golf world by virtue of his equaling the course record of the Spokane Country club with a card of 66. Miller was playing with Ira Fouts when he shot his sensational score.

In turning in his 66 Miller scored an eagle on No. 17 and a birdie on No. 16.

His card follows:

Out—5 4 4 4 4 3 3 4 3—34
In— 3 4 3 5 4 4 3 2 4—32—66

Miller has been advancing fast and gives every indication of developing into one of the leading golf pros of the northwest. Early in the season he joined the hole-in-one club by scoring an ace on No. 15.

Strathmore people will be delighted to learn of Billy Miller's success, as he is an old Strathmore boy, being the son of Mr. and Mrs. Oscar Miller, who were residents here for a number of years, and were actively engaged raising Duroc Jersey hogs.

Initial Pool Payment Will Be 85 Cents

—o—

WINNIPEG—The central board of the Canadian Wheat Pool, in an official statement issued Monday by E. B. Ramsay, secretary and manager, announces that the initial payment for the 1928-29 crop will be 85 cents a bushel, basis number 1 northern, at Fort William.

"The wheat pool board, in taking this step is following the same consistent policy pursued from the formation of the pool," Mr. Ramsay stated.

"The initial payment made by the Alberta pool when it began operations in 1923 was 75 cents a bushel. The initial payment for the four subsequent years was $1.00 a bushel. The initial payment has always been based upon market conditions at the opening of the crop year and bears no relation to the price per bushel ultimately received by the pool members.

Almost Sold Out

"We are starting the new crop year practically sold out. The rumors that have been circulated during the past year in respect to the large stocks of wheat held by the pool are therefore entirely refuted.

CANADIAN PACIFIC REPORT ON ALBERTA CROPS

—o—

WINNIPEG—In Alberta 15 percent of wheat, 29 percent of oats and 30 percent of barley has been cut, in Northern Alberta crops are slightly later, and harvesting not quite so far ahead. Threshing outturns in the Taber Subdivision reveal wheat yields 25 bushels per acre grade No. 2 northern, weight 62 pounds to the bushel. This crop was damaged by hail during the season Sawfly in Provost district is reported to be taking considerable toll of crop and will force early cutting. Frost on the night of the 23rd did apparently little harm.

FORMER GENERAL NOW DISH WASHER

—o—

QUEBEC—The vicissitudes of life are vividly exemplified in the career of Brig.-Gen. Charles Henry Gough, D.S.O., D.C.M., who, after rising to an enviable position in the Australian army, is now in reduced circumstances and a "dishwasher" in a local hotel.

General Gough was born in Faversham, Kent, and in 1883, entered the British army as a drummer boy at the age of 14, seeing service in remote corners of the world. In the North-west Expedition of 1908-12 he was awarded the D.C.M.

Resigning from the British army in 1913, he enlisted in the Australian forces and served in Egypt, Gallipoli and France, rising to the rank of brigadier general and gaining in addition to the 1914-15 star and the general service and victory medals, the Distinguished Service Order.

In 1919 he was invalided back to Australia and retired from the service, afterwards going to the United States. Purely private reasons brought him to Canada, where he was unable to obtain suitable employment. In Quebec when almost destitute, the distinguished soldier was forced to accept the menial position which he now occupies.

Mrs. John Kent Dies Suddenly At Vancouver

—o—

Friends of John Kent, Cheadle, were shocked to learn of the sudden death of his wife at the coast.

It was but a few days since she left, and while she had not been in good health for some time, no immediate danger was anticipated.

Mrs. Kent was born in England, and she and her husband resided in Saskatchewan for a time, coming to the Cheadle district about fourteen years ago, where she made many friends through her many kind and thoughtful acts. She is survived by her husband, four sons and two daughters, to whom the sympathy of friends in the Cheadle and Strathmore districts is extended in their bereavement.

The funeral service was conducted by the Rev. J. N. Wilkinson, and the interment took place at Calgary. The pall bearers were John McKay, H. McKenzie, F. McKenzie, H. S. B. Chamberlain, J. Lowery and J. Schober.

GREAT CROP FORCAST BY THE GOVERNMENT

—o—

OTTAWA, Ont.—Reports from Western Canada indicate a wheat crop of 500,000,000 bushels or more. The crop of other grains—oats, barley, rye and flaxseed—will be between 300,000,000 and 400,000,000 bushels and the value of all grain crops to the west will approximate $750,000,000, based on the result of the last three years and present prices.

What this means in new money coming into the country is indicated by the fact that Canada's exportable surplus of grain in 1925-26-27 yielded well over $1,000,000,000.

The following table shows the production and value of wheat in the prairie provinces in the last three years:

Year	Bushels	Value
1925	367,058,000	$451,956,000
1926	380,765,000	408,279,000
1927	414,919,000	407,096,000

The production and value of oats, barley, rye and flaxseed in the last three seasons was as follows:

Year	Bushels	Value
1925	292,850,000	$320,377,000
1926	318,636,000	146,549,000
1927	363,359,000	184,950,000

The value of all field crops in the three prairie provinces was $630,491,000 in 1925; $625,214,000 in 1926; and $664,087,340 in 1927. Exports from Canada of wheat were valued at $564,364,388 in the fiscal year ended March 31, 1926; $353,094,000 in the year ended March 31, 1927; and $352,117,150 in the year ended March 31, 1928.

Exports of other grains in the corresponding years were valued at $65,000,000, $45,000,000 and $42,000,000, respectively.

Exports of agricultural, vegetable and animal products from Canada are valued at more than $700,000,000 annually, or about half the total exports.

"MEN'S BETTER WEAR"

LANGDON

Miss Maisie Fleming, of Vancouver, has been visiting her friend, Miss Muriel Henderson for a week.

• • •

Miss Jessie Muryn, of Redcliffe, was a guest at the Wm. Barron home for a few days last week.

• • •

Miss Nellie Barron, who has been attending Summer School at the University of Alberta, is home for a short visit before taking up her school work near Ponoka.

• • •

Mrs. S. J. Scott and Ernest came home Friday night from a motor trip to Buford to visit relatives.

• • •

The annual meeting of the Langdon & Bow River Agricultural Society was held in the town hall Wednesday, August 15th. A report of the successful fair held August 8th, was given. Attendance was larger than last year, entries in cattle and horses were as large, but swine, vegetables and women's exhibits were smaller; poultry entries were about the same, but with the new poultry building and the interest the people in this community show in good poultry, there should be a much larger exhibit next year. The sports committee put on good sports, including races, horse races, bucking contest, and a ball game between Carseland and Langdon, the former winning. A well attended dance was held in the evening. Mr. L. H. Bittle was re-elected President for the coming year, and the first and second vice-presidents Mr. H. Phillipps and Mr. H. Dain were also re-elected. E. T. Moe was elected secretary-treasurer.

• • •

One of the best attended meetings of the year was held last Wednesday when Mrs. V. E. Dye entertained the Women's Institute at her home. Miss Irene Hill and Miss Helen Shantz, of Calgary, were out-of-town guests.

• • •

Langdon School Fair, September 6.

NAMAKA

Work has commenced on the basement of the new school. School will open on Tuesday, September 4th, in the I.O.O.F. Hall.

• • •

Mr. Godfery Wooster, who has been employed in the bank at Innisfail, visited his uncle at Namaka over the week end, and left Sunday for his home in England.

• • •

Miss Jean Dougherty, of Calgary, is a visitor at the home of Mrs. Watts.

• • •

Mr. Frank Carr, of New Westminster, accompanied by Mr. Owen, of Huntington, passed through town en route to Saskatchewan, where they will spend a two months vacation.

• • •

Charlie Webster, of Calgary, was a visitor at the home of Mrs. Habgood during the week.

• • •

The dance under the auspices of the Curling Club, held at Emil Matchuck's barn, was quite a success, nearly two hundred people being present, and everyone enjoyed themselves.

• • •

Mr. Rae Baker went to Calgary and had an operation on his nose. He reports it not the pleasantest thing in life.

• • •

Mrs. Bell left Monday for her home in Chicago.

CANADIAN PACIFIC SUPPLIES FORTY THOUSAND CARS

—o—

WINNIPEG, Man.—With the 1927-28 crop year terminating August 1st preparations are practically completed for the movement of the new harvest which will begin within the next two weeks. The Canadian Pacific Railway is gathering grain cars for distribution to country elevators, the requirements this year being far in advance of previous years, more than 40,000 box cars being set aside for the movement. Great engines are being distributed to divisional points, a total of 79 being this year loaned by eastern lines to add to the allotment already made for the western grain movement.

TWINS' BIRTHDAYS IN DIFFERENT YEARS

—o—

OTTAWA—Manitoba twins with birthdays a year apart have been reported to the Dominion bureau of statistics.

One of the babies was born shortly before midnight on Dec. 31, and the other after midnight, so that one babe has a birthday in December and the other in January.

December's child will be in its third year in 1929, while the other twin will only be in its second year.

SPORT NOTES

PLAYERS WIN IF HORSE FINISHES IN MONEY

—o—

The Australian Totalizator makes it wholly unnecessary for a player to decide whether he will bet a galloper to win, place or show. For there is no win-place-show betting permissible in the arrangement of the machine. Only one wager is possible. That is simply a bet that the horse will run first, second or third. If he runs first, the player is paid off at winning odds; if he runs second he gets place odds and if he drops into the third hole the backer gets third money.

In explaining this, Frank G. Menke, the well-known sport writer, who has seen it in operation, says:

"As an offset to whatever criticism may be made of that 'tote' angle, the player is immeasureably benefited because in the U. S. A. if he is down to his last $2, likes a horse to win, but is afraid to risk it, he usually plays the horse to show. If the horse does win, all he gets is show money. In 'tote' wagering he gets the winner's money.

"No man who ever has seen the 'tote' in operation and compared it with the workings of the faulty and quated pari-mutuel system in this country can be against the installation of the 'tote', unless he studiously wishes to subject the sport racing public to the risk of having their money stolen by crooked pari-mutuel employees. For the 'tote' is protection for the public: it safeguards the bettors money; it is proof against cheats and crooks and it gives to the racing public every dollar that is its due—not as many dollars as some pari-mutuel officials might think is enough for the payoff."

The Totalizator works in this fashion:

All bets made are part of a single gigantic pool. When the payoff time arrives, the state and the race track take the cut which is allowed to them by law. The balance of the pool is for distribution among the players who hold tickets on the horse finishing 1, 2, 3.

Usually the pool is split 60 per cent to the winning horse, 25 for place and 15 for show.

For instance, let us say that the pool, after the "cut" was taken amounts to $50,000. This is split $30,000 for the holders of tickets on the winning horse, $12,500 for the ticket holders on the place horse and $7,500 for the folks who bought tickets on the horse that ran third.

When payoff time arrives, if only one ticket has been sold on the winning horse, the holder gets all of it. If 1,000 tickets were sold, each gets a one-thousandth share or $30. And the same system applies to the payoff on place and show horses.

The "tote" is a happy contrivance for the player, for in all instances, is paid off accordint to where his horse finished. There are no regrets there, like there are in pari-mutuel play here by players who put their money on a horse to show and were paid off only at show odds, although the horse won.

In Australia the player gets the payoff on the basis of where the horse finished—not where the bum-guessing player thought he might finish.

—o—

FIRPO WHO FOUGHT DEMPSEY COMING BACK

—o—

NEW YORK—From the region on the other side of the tropics comes a mighty rumble and roar. A hairy-chested, swarthy giant with angry black eyes goes puffing along the highways of the Argentine, pulling the excess flesh melt slowly off his ponderous frame. The "Wild Bill" of the Pampas is on the war path.

Luis Angel Firpo, who was knocked into obscurity five years ago by the good left first of Jack Dempsey, is planning a comeback.

Much has happened in the realm of pugilism since that night in 1923 when Firpo crashed a blow into Dempsey that sent the Manassa Mauler hurtling out of the ring, and then stood there stupified while Jack crawled back and rocked him into dreamland in the second round. Gene Tunney has retired; Jack Dempsey has turned actor and Firpo has gained 45 pounds.

Those 45 pounds are a heavy burden on the Wild Bull's shoulders as he grasps the lowest rung and prepares to start all over again in the long climb up the ladder to pugilistic prominence. United Press dispatches from Argentina the other day carried the news that Firpo already had lost 15 pounds and was confident he would get back to his fighting weight of 215. He is doing his roadwork conscientiously and proudly exhibits four notches that have been taken in his belt since he started reducing.

He's Not So Old

Firpo isn't an old man in this age of 36-year old champions. He was born in 1896 and should have at least three good fighting years left in him; he rivals Tunney as an exponent of clean living and has never been known to smoke or take a drink.

Fate has been kind to the Wild Bull since he sailed away from these shores with plenty of Tex Rickard's good lining his pockets. He has worked hard and is now the head of a prosperous automobile importing concern in Argentine, which he plans to incorporate so he can have more time to devote to training.

Probably nothing would please Rickard more than to have Firpo get into shape, whip a few second-raters and then plunge into the elimination tournament out of which the next champion of the world will emerge. The Wild Bull is a great favorite among the customers at Madison Square Garden. Making no pretense of being a boxer, Firpo storms into the ring and starts milling with his heavy arms, hoping one blow will land. When one does, something happens. Dempsey is the only man who ever has seen him down for the count of ten.

Tunney's retirement apparently convinced Firpo that he had a good chance against the contenders for the title. With Dempsey out of the way, the Wild Bull is the only man on the horizon who can knock out his opponents consistently. And that's the kind of fellow Rickard is looking for.

If Firpo can get back into shape, there may be some excitement after all in this winter's elimination tournament.

DEMPSEY REAL FRIEND IN NEED

—o—

NEW YORK—Jack Dempsey, former heavyweight champion, forgot his quarrel with his former manager, Jack Kearns, long enough to hurry to the bedside of Kearns' wife, Leguna, who is seriously ill from a mysterious poison at the Long Beach hospital.

Kearns, it was reported, was speeding east from Los Angeles.

Mrs. Kearns was removed to the hospital in critical condition. Her sister, Mrs. Charles Snyder, unable to reach Kearns immediately decided to call upon Jack Dempsey in the emergency.

He responded willingly, notifying Kearns' lawyer, Jacob Glein, of his client's illness and then hurrying to the hospital.

WORLD SERIES OPENS OCT. 3

—o—

CHICAGO—The 1928 World Series will begin on Wednesday, October 3, at the grounds of the club winning the American League championship. The opening game automatically fell to the American League this year under the alternation plan formulated by the late Charles H. Ebbetts, and the dates for the series were agreed upon last week by the officials concerned. The schedule agreed upon calls for games in the American League park on Wednesday and Thursday, October 3 and 4, with a day for travel intervening before the battle is resumed in John Heydler's sector if a Western club wins the National League pennant. If two Eastern teams play for the championship the series will begin on October 3, and continue without a break until one team has won the requisite four games.

CANADIANS TO USE PIGEONS IN PATROLLING

—o—

OTTAWA—The homing pigeon, which won its spurs by brilliant work in the World War, has been officially enrolled in Canada's peace-time air patrol.

The Department of National Defence announces the establishment of a carrier pigeon service as an auxiliary to the forest fire patrol and aerial photographic survey. Pilots leaving for patrol duty over the northern wilderness will hereafter carry two or more of the birds which they will liberate with a message in the event of a forced landing in a remote spot.

WILL ROLL BARREL ON TRIP TO MIAMI

—o—

Harrisburg, Pa.—Tudor Alex of Lackawanna, N. Y., has been granted permission to roll a barrel through the state of Pennsylvania, en route from Buffalo, N.Y., to Miami, Fla., the only restrictions imposed upon him being that the barrel must contain no intoxicating beverage and must be manipulated in a way which will not interfere with traffic.

THE SAYINGS AND DOINGS OF MANY PUBLIC MEN

J. Ramsay MacDonald: "Let us range ourselves alongside all those making a declaration of the simple fact that all nations hope to eliminate from their national policy the thought of war."

• • •

Arnold Bennett: "Avoid as far as possible paying others to do things which you can do for yourself; that way lies helplessness."

• • •

H McMichael: "It is anything but desirable that a young man should appear at business in a golfing uniform."

• • •

Roy L. Smith: "There is more fun in hard work than in hard times. Take your choice."

• • •

Governor Fuller: "What this world needs more than all else, what it must have if civilization is to continue to advance, if it is to slough off its sins and blunders and go marching onward toward the ultimate goal of the human race, is people with a purpose."

• • •

Lord Gainsford: "America and England, with all the differences which exist, still have a common language, and an amount of common sense which will enable them to work together in increasing friendliness in the future."

• • •

Harry Emerson Fosdick: "We cannot reconcile Jesus Christ and war. War is the most colossal and ruinous social sin that afflicts mankind, it is utterly and irremediably unchristian."

• • •

Emil Ludwig: "America has more humor than we (Germany), and that is the best of all about the country. We, too, have wit, but we take ourselves terribly seriously."

• • •

William McAdoo: "The greatest trouble with our community today is that everybody is demanding his rights—all rights but no duties to go with them."

• • •

G. H. Grubb: "The art of conversation seems on the wane. Now and then someone really seems to be trying to speak correctly, and the pleasure it brings is almost equal to that which comes with the efficient playing of the Fifth Symphony of Beethoven."

• • •

Sir Philip Gibbs: "I am old-fashioned enough to believe that ultimately the world can only be saved by getting back, or forward, to the Christian ideal and law of life, with a spiritual authority, admitted humbly and worshipfully in the hearts of men and women."

• • •

Charles J. Turck: "Any calling is great when it is greatly pursued; it does not matter what we do so long as we do not regard it only as a means of making a living."

• • •

Henry Ford: "Up to the age of 40 a man is in training—every man is; he is assembling the tools with which to work."

• • •

Load Meston: "You can direct your life in the pursuit of knowledge, or in the pursuit of wealth. Sometimes it is possible to catch the two together, but very rarely."

• • •

Homer W. Tope: "Stand by and support the public officials whom we know to be honest and intelligent and headed the right way. They need our support and we need them."

The Real Stuff

It's the bumps you get, and the jolts you get,
And the shocks that your courage stands,
The hours of sorrow and vain regret,
The prize that escapes your hands.
That test your mettle and prove your worth;
It isn't the blows you deal,
But the blows you take on this good old earth
That shows if your stuff is real.

President Coolidge: "The whole foundation of enlightened civilization, in government, in society, and in business, rests on religion. Unless our people are thoroughly instructed in its great truths they are not fitted either to understand our institutions or provide them with adequate support."

• • •

Henry Ford: "We have found that prosperity is not the product of charity but of industry, not of receiving but of producing. Money, as such, has little to do with prosperity, because in itself it does not produce."

Toronto Saturday Night: A friend of mine visited Calgary during stampede week and claims to have overheard the following conversation:

Tourist: "Is Calgary always like this? All these whooping cowboys, Indians and Mounties, I mean?"

Citizen: "Sure, sure; oh, yes. A real frontier city, this. You'll not see this anywhere else in the world. Real Indians, real cowboys, range horses. You're right in the heart of the wild and wooly."

(An interesting intermission of one hour).

Tourist: "This is great! I had no idea that these things could still be seen in the west. Why, Mexico is as peaceful as a Dutch village alongside this. This is colorful, almost barbaric. Do you think the country ever will be civilized?"

Citizen (hastily): "Now where did you get that idea? Calgary is an industrial city, cultured, modern. Snap out of it, man. We just put this show on to humor the tourists. Fact is, we have to import all our riders and bad horses. 'Sa fact! Ha, ha."

Calgary Institutions: "Banff, Ranchman's Club, E. P. Ranch, Hillhurst and Cattle football clubs.

Products: H. W. Wood, Nellie McClung, Pat Burns, Ernie Richardson, and gushers, which in order of volume are R. B. Bennett, William Irvine, and Royalite No. 4.

In case you are thinking of visiting Calgary, I shall give you a list of subjects to avoid:

1. Professional hockey.
2. The 1914 oil boom.
3. The 1912 real estate boom.
4. The farmer government.

• • •

Roy L. Smith: "Strong men do not need to wait until something turns up; they turn things up."

• • •

William Johnson: "Farming may produce no millionaires but it has no bread lines."

• • •

Charles E. Jefferson: "In the matter of religion there is no nationality."

• • •

Without printers, the teachers of the ages would have taught in vain; the dreams of philosophers would have finished up in the tapers that burned for their meditations. Printing is the science of all sciences, the art of all arts, for it has opened the land of fair opportunity to the untold millions. Since its discovery and application, mankind has experienced more pleasure, greater enlightenment, larger happiness, truer liberty, than had come to it with the blind gropings and the voiceless aspirations of the countless centuries preceding."

• • •

The Blairmore Enterprise says: "For a printer's error, the following appearing in one of our exchanges recently takes the cake. 'My wife, Elizabeth Jean, having without cause left my bed and board, I will not here-after be responsible for any bills contracted by her.' This advertisement is not inserted by the Alberta Liquor Control Board or by the Government of the Province of Alberta."

I Saw Last Week

JIM MORAN looking very sad when the fishing party comprising Alex Gray Sr., Jean Kimmett, Chas. Keeling Bobby Hambly, Bill Gray and "Dad" White Pulled away in their big sedan and left him to "carry on" at the plumbing work. "Now what do you know about that," said Jim, "and there isn't a real fisherman in the bunch. R. H. PATTEMORE supplying himself with five hundred sheets, anticipating numerous calls from the country as soon as the wild geese begin to travel south. He expects to be able to supply each of his friends with one or more geese. JIM SWANSON, travelling around town in a nice bus, in good company, and pretending that he was waiting for Jean Kimmett, who was expected back with a carload of fish. "RED" McKECHNIE a busy man on Saturday night, receiving congratulations. LOUIS GEORGEOPOLIS returning from a trip to Coronation, where he was the guest of Frank Miller at the Royal Crown Hotel. NEAL McDONALD qualifying for membership in the Grasswidower's Club. PETE TELFER escorting John Taylor around town and assuring him that "Jock" was the best behaved young man in their crew, under his guidance and example. PETE DE KORT capturing a wild canary and presenting it to Mrs. M. Crellin. JOHN C. DAVIS in town on Saturday night, discussing the probability of frost with Percy Parish. BILL WILKINSON having an interview with a pure bred Airdale. GENE GIROUX, LESTER JONES and FRED McKay leaving for a flying visit to Calgary on Sunday night. DR. D. A. HAWORTH telling how pleased he was with his new practice at Stand ard. D. A. PERRY completing his arrangements to get away for his annual vacation, counting his bankroll before leaving, which he says will be quite needless when he returns. RAY MELVIN flying around with his new Iler Flying Cloud. ALF CARLSON receiving congratulations upon the arrival of a little "garageman". "That's where I put it over on 'Dinty' Moore," said Alf. However, he is buying the cigars just the same. T. M. WEARS giving public notice how you can get on the voters' list; September and October are the accepted time, not on polling day, so govern yourself accordingly, and don't blame T. M. if you are not on the list; just make the request, that is all. BILL TIERNEY reminiscing with an old friend from the East. GEORGE QUIRIN driving a Ford car, and almost causing heart failure to D. N. Gardiner. D. N. should remember that George is a very preoccupied young man these days. OLIVER WRIGHT admiring his floral display, from which he is going to pick a few specimens for exhibition at the Calgary Horticultural Display. BILL MATHERS obliging a patron by serving potatoes for breakfast. REV. T. B. WINTER busy making preparations for the Olde English Faire in Lambert Park on September 19th. Certainly you should attend—it will be a real event. FRANK SEALES climbing on the roof at 6.30. Don't know whether he was coming home or starting out. NORMAN GATENBY and WILFRED GARDNER extolling their mountain climbing experience to two very, very interested ladies at the top of Sulphur Mountain at Banff, and Mrs. Gatenby nor Mrs. Springthorpe were chaperoning; I'll say they were not.

BAINTREE U.F.W.A.

—o—

The regular meeting of the Baintree U.F.W.A. was held at the home of Mrs. C. M. Wise, Baintree, on August 15th, with Mrs. Edwards as hostess. In spite of showery weather, the attendance was good. We had as visitors, Mrs. H. Gofrey, Mrs. Ambrose Wise, Mrs. Cress, Mrs. Becker and Miss Watson; also Mrs. Shirley, who is visiting her sister, Mrs F. Bannister. Mrs. Edwards occupied the chair for the afternoon, in the absence of the president, Mrs. W. A. Lyons. After roll call and reading of minutes of previous meeting, the regular business of the meeting was discussed, the most important matter being the next ice cream social. It was moved by Mrs. Edwards and seconded by Miss E Lambourne that we hold the social in the local schoolhouse. This motion was adopted.

The social will be held on Saturday, September 1st, at the schoolhouse, Baintree. A contest was put on by the hostess, in which the prizes awarded were bouquets of flowers gathered from the many lovely ones growing in the park across from the house. If one may speak a word of appreciation for a delightful afternoon spent in such surroundings, it is to compliment Mr. Wise, who, almost unaided, has transformed the prairie into a paradise of flowers of almost every size and hue, ranging from the small California poppy to the tall and gorgeous hollyhock. This, together with an impressive and splendid background of massed trees, complete a picture worth remembering, and is, indeed, one of the beauty spots of the district.

Mrs. W. A. Lyons, who is convalescing at her home in Baintree, after an operation for appedicitis, was pleasantly surprised on Tuesday, August 21, by the executive of the Baintree Local, who, as a token of their esteem and as a gesture of affection for their fellow-officer and President, drove to her home on Tuesday and presented her with a bouquet of flowers, together with a few words of greeting. In the absence of our vice-president, Mrs. Lawrence Wise, Mrs. Edwards presented the flowers.

Albert Olsen and Bertie Silver, from Calgary, are spending part of their vacation with Mr. and Mrs. P. J. Lyons, Baintree. They will return in September to attend High School.

WILL WHEAT TOUCH THE DOLLAR MARK?

—o—

CHICAGO—Big business stepped into the grain market last week and brought an abrupt stop to the collapse in all cereals. The name of Julius Barnes and Barney Baruch were freely used by insiders who declared that orders from 'higher up' had been issued to stop the decline, even if a few million dollars had to be sacrificed.

But no bull market is in sight—none seems possible. World liquidation has set in, a downward tendency has developed and this may lead later on to a general downward revision of all living costs.

Traders who look at prices can find numerous arguments favoring purchases of grain futures at these levels. But for the first time since the close of the war it has become a case of actual conditions overriding the inflation tendencies due to war and reconstruction.

Wheat will sell very close to the dollar mark. North America has somewhere near a billion and a half bu. wheat—new and old—and Europe needs about 300 million bu. less than export quantities now or sooner to be available.

But a fine old seven cent rally was staged in wheat. Even the use of the magic name of Baruch was enough to send prices spiraling upward. Probably some of the reports were mere canards—probably the use of the names of Mr. Baruch and Julius Barnes were unauthorized.

But the market was ready for anything constructive and all grains had fine rallies.

Wheat looks hopeless around $1.20. Corn will almost certainly sell down a dime a bu. or more. After that bears will have to step lively to avoid another smacking.

Corn crop exceeding 3,250,000,000 bu. is fast ripening. Canada's wheat crop has been underestimated rather than exaggerated.

Big crops mean low prices, short crops mean high prices and bad financial conditions.

Dollar wheat—sixty cent corn—maybe.

Brown, a retired business man, had bought a big house in the country, and he was very pleased to see that a colony of rooks were building in his trees.

Not so a neighboring farmer, however, who told his sons to shoot the birds.

One day the farmer had a note from Brown.

"Dear Sir—You might stop your sons from shooting my rooks. I want to make a rookery."

A few hours later, Brown received the following reply:

"Dear Sir—You might stop your rooks from stealing my corn. I want to make a living."

The formula for literary success is as follows:

Take the square root of ability and determination, divided by laziness; add good fortune multiplied by the patience of editors; subtract postage and typewriter ribbons; extend endurance to infinity; multiply the dividend by the economy of one wife carried to the nth power; divide among x children and y creditors; borrow $5 and put the net balance in a bank, if you can find one to open an account for 49 cents.

MOUNTIES ARREST MAN AFTER SEVEN YEARS

REGINA, Sask.—Seven years ago Joseph Germaine, farmer of the Squaw Valley, eight miles west of Craik, mysteriously disappeared from his farmstead. The mounted police officers, who have been quietly investigating the disappearance of Germaine, arrested Samuel Pat, and charged him with the murder of Germaine, before Stewart Gibson, J.P., at Regina. Pat was remanded without bail.

Early in 1921, Pat, who had been working for Germaine, made an agreement with him to buy the farm. Pat paid a certain sum of money on the purchase price, and Germaine paid some outstanding bills.

Shortly after the deal was put through, Germaine called a meeting of his creditors, asking them to meet on a certain day and saying that all debts would be paid and accounts closed.

The meeting, according to reports, never came off, and Germaine was seen no more. Police authorities in the fall of 1921 made enquiries concerning the disappearance and circularized police forces in the United States, whence Germaine had come years before. All the information the police ever got was that nothing had been heard of Germaine.

Pat, armed with an agreement of sale for the farm, took possession and continued to operate it.

ALBERTA MACARONI BEING SHIPPED TO NEW ZEALAND

LETHBRIDGE, Alta. — Macaroni from the Columbia Macaroni Factory of Lethbridge is going to invade the New Zealand market. A car of Lethbridge made macaroni left this week for New Zealand, the order being placed as the result of samples sent by the local company last January. The report from the New Zealand dealers was that the local macaroni was "second to none". There is now no duty on Canadian macaroni entering New Zealand and a profitable market there is anticipated. An effort is now to be made to enter the Australian market. Mr. Rader, head of the Columbia Macaroni factory has received from Italy and installed the largest and most up-to-date macaroni press in America, which will enable him to double the capacity of his North Lethbridge plant.

WHY MANY CANADIANS HAVE LEFT CANADA

Why do men leave Canada for the United States, or for any other country? We have a young country, rich in every form of natural wealth, an unsurpassed climate for the breeding of strong men; a country not overcrowded, and one in which there are as many chances to succeed as may be found in almost any country of the world. Why do men leave this goodly heritage? Mr. Bennett is trouping through the country making many speeches and in most of them emphasizing the drift from Canada of our men to the United States. He has his remedy all ready made, too, though that need not be discussed here.

Some men leave Canada simply because they want to leave it. The fields of the United States look greener. These are the men with the restless feet, of whom Robert Service sings. Always men have fared forth, lured by the appeal of other lands; always men will. We cannot stop them; probably we cannot bring them back. The successful stay in the land they found good to them. To talk about repatriating those who have left Canada is puerile.

Many of our men who go to the States, go there, because they get higher wages and a lower cost of living there than here. Wages are too low in Canada and the cost of living too high. To seek to remedy the state of things, Mr. Bennett declaims against by raising the tariff and, thereby, making everything we buy dearer, is no remedy. If we could have the same high wages guaranteed here as prevail in the United States and a cost of living no higher here than there, then Mr. Bennett's remedy might deserve consideration. There can only be the fullest sympathy with any plan that will protect the market for the Canadian manufacturer but it will not deserve sympathy unless it protects the wage earner, too. So far, in Canada, that remedy has not given the Canadian working man the same high wages his brother worker gets in the United States. When they earn as much here as they can earn across the line they will stay here and no jockeying with the tariff that does not provide for the payment of wages equal to those paid in the United States will stop the immigration of our people to the land of Uncle Sam.

There is one great corporation in Canada that began twenty odd years ago with five hundred thousand dollars of capital. That is all the actual money that has ever been put in to it. To-day its capital stands at around fifteen million dollars, all of it "water" except half a million dollars, and its assets at over thirty million dollars. That company has paid tremendous dividends. Its workers are amongst the poorest paid in Canada. In those facts we have the answer to the talk about people leaving Canada. They will stay here when we make Canada fit for them to live in by paying as high wages as are paid next door. So simple is this that many will never see it.

CRADLED IN POVERTY—REACHED THE HEIGHTS

One of the most remarkable facts in the world is being brought to the attention of Canadians at the present time. That fact—if he will excuse terming him a fact—is Ramsay Macdonald, at present visiting Canada. Macdonald is one of the most significant facts of our times. The first man ever to become head of a Labor Government in Great Britain; Labor's first Prime Minister in the Old Country, a country rich in feudal traditions, owning an old nobility, and one in which from time immemorial the ruling classes have been the rich, the noble, the aristocratic classes, is surely a fact that, as Burns would have said, "daurna be disputed".

Cradled in poverty, largely self-educated, without kith or kin to give him a leg up, forging ahead by sheer force of his own determination to succeed; making himself one with the poor and the lowly in the fighting of their battle for social justice; never stepping outside his class nor, when he had reached the heights, despising it, Ramsay Macdonald by the sheer force of character, intellect, and the will to rise has carved out for himself a niche among the immortals, and the greatest of the qualities through which he has risen is character. He has made it true that the aristocrats still rule the Empire, but in his case it is the aristocracy of character that rules.

If it has been possible for Ramsay Macdonald to rise to the highest elective position in the British Empire, that of Prime Minister of Britain, what has made it possible? Britain herself has made the fact possible. She may be steeped in hoary tradition; her story may be largely that of how her nobles have ruled and governed; governing very well, too, on the whole. But deep down in the British heart, in the very warp and woof of British character, has lain the democratic spirit. It is because Britains everywhere submit to be ruled that they are ruled—by their own consent and by rulers and administrators acceptable to themselves. It is this democratic spirit that has evolved Ramsay Macdonald as Britain's first Labor Prime Minister and that will probably call him again to that high post of service. Democracy has made this fact, Ramsay Macdonad, possible.

Mr. Hoover, immediately after his nomination said something to the effect that the United States was the only country in the world in which a boy was born and raised in poverty could reach the highest position in the land. Hoover forgot Ramsay Macdonald and Lloyd George, both of whom came up from the lowliest beginnings to be His Majesty's Prime Minister. That is England, the most democratic country in the world, where the King has less power, if more permanency, than the President of the United States, and where there is a burning love of democratic principles that no other country can equal. It is not that "Jack is as good as his master" in England but that his master is as good as Jack and if not, is left behind in the race to serve the country best. "Mac" is a product of his times, it is true, but he is more than that. He is the product of the spirit that won Magna Charta, that made the Mother of Parliaments the first and freest Parliament in the world, and that has brought forth out of the womb of time a party of working people, brain workers and hand workers, who are inspired by Whittier's words addressed to the reformers of England:

"Blessing the cotter and the crown,
Sweetening worn labor's bitter cup,
And, plucking not the highest down,
Lifting the lowest up".

THE MUSIC OF THE WESTERN HARVEST

The Toronto Globe enthuses over the western harvest conditions and says so many hazards have now been overcome that it is almost taken for granted that the Western wheat harvest will this year constitute a record by a considerable margin. An increase of 2,000,000 acres seeded would require a major setback to bring anything but a record; still, the colossal undertaking of the Western farmers must always face serious dangers and only when these are past is rejoicing in order.

The binders are at work in all directions. Grain is too far advanced to be in serious danger from rust. There have been local hail storms and regional wet stretches, but, as a whole, the conditions have been excellent, and the talk is of a crop of 500,000,000 bushels of wheat, compared with 440,000,000 last year, and with 473,000,000 in 1923, the year of the greatest previous production.

Marketing problems will soon occupy the minds of leaders. Weakness of wheat for the past month gives some concern, and leads to fear that lower prices may be expected for the new crop. A difference of 10 to 20 cents per bushel is no light matter for the producer. At the same time, the wheat pool is strongly entrenched, even in world markets, with Canada the largest exporter of wheat among the nations. Experience and confidence should bring a good return through the selling organization which controls 40 per cent. of the crop.

The harvest is like music for the West, the golden stream of grain bringing enormous new wealth whose influence is felt everywhere. The farmer has the needful for all his purchases, his interest on borrowed money something for payment on past debts, if any, perhaps something for luxuries before Christmas. Tradesmen feel the current of new money in bills paid, middlemen clip a fraction here and there and plan new expenditures. Manufacturers foresee enlarged markets, distant cities will realize increased employment. It is a genial vitalizing fluid running through the nation's veins, for the wheat crop will represent about one-fifth of the new wealth of the entire Dominion from primary sources for the year. No Canadian can be indifferent to it.

TEACHERS DEMAND DANCING COLLEGE

—o—

BERLIN—The creation of a dancing college with a four-year course of instruction was demanded in a resolution adopted by the second German Dancer congress held at Essen recently.

The congress called on the German government to establish such a college and to introduce "dancing gymnastics" in all public schools.

It also called on the government to create a public scientific and sociological institute for research of movement.

Dancing teachers are to pass a strict examination before being admitted to practice.

Take a Ride and you will know

ONE of the most spectacular achievements in automotive history is the manner in which today's "Bigger and Better" Chevrolet is increasing its margin of leadership as the world's largest builder of automobiles.

Come, take a ride! Learn the reasons why people prefer Chevrolet.

Know Chevrolet performance! Wherever hills are steepest, the fame of the Chevrolet motor is greatest—because it is built on the valve-in-head principle, which provides all the power advantages of overhead direct firing.

Chevrolet's delightful smoothness is achieved by the use of invar-strut alloy pistons, and by the accurate balancing of reciprocating parts.

Chevrolet flashes out and away when you open the throttle because it offers the advantages of light invar-strut pistons, large valves, and carburetor equipped with an acceleration well. Come, take a ride—today!

LEGLESS WAR VETERAN SUCCEEDS AT FARMING

WINNIPEG—E. A. Howe, Canadian farmer since 1913, whose war experience left him entirely legless after 12 operations in 10 weeks, and who has since never had a day's illness. He was formerly of Winslow, Buckinghamshire, England, but is now a thorough Canadian, superintending, by means of a horse and buggy, his 160-acre farm in Manitoba. This veteran with his "two chips of the old block", the three having returned to Canada after a brief visit in the Old Country, refuses to accept sympathy for his infirmity. He cannot see why more young men should not migrate to Canada, and why they should not be successful at farming, in view of his own success despite physical adversity.

CHASE COYOTES BY AIRPLANE, SUCCEED

CLEARMONT, Wyo.—Bob Garret and George Ostrom, hunters, have devised a new game requiring many kinds of skill. Shooting coyotes from an airplane is considerable more comfortable than shooting them from horseback, at any rate, Ostrom says.

Ostrom is a former government hunter. He and Garret started out looking for a coyote that had been making raids on a herd of sheep. They found it after an hour's hunt and Ostrom killed it with a shotgun as the coyote streaked for safety.
